

MEDINI K. ANNAVAJHALA, Ph.D.

Date of Preparation: September 2, 2019

Academic Appointments and Other Work Experience

12/2018 – Present	Infectious Disease Division, Columbia University <i>Postdoctoral Research Fellow</i>	New York, NY
06/2017 – 11/2018	Infectious Disease Division, Columbia University <i>Postdoctoral Research Scientist</i>	New York, NY
08/2012 – 05/2017	Dept. of Earth and Environ. Eng., Columbia University <i>Graduate Research Assistant</i>	New York, NY
10/2010 – 05/2012	Dept. of Chemistry, Carnegie Mellon University <i>Undergraduate Research Assistant</i>	Pittsburgh, PA
06/2010 – 08/2010	Proctor & Gamble, Home Care Research & Development <i>Products Research Intern</i>	Cincinnati, OH

Education

08/2012 – 05/2017	Columbia University, School of Engineering and Applied Sciences Department of Earth and Environmental Engineering MS, May 2014 PhD, May 2017 <i>Sponsor:</i> Dr. Kartik Chandran <i>Thesis:</i> “Meta-omics-derived structure, function, and activity of mixed microbial communities driving biological nutrient removal and recovery”	New York, NY New York, NY
08/2008-12/2011	Carnegie Mellon University, Mellon College of Science Department of Biological Sciences & Department of Philosophy BS, December 2011	Pittsburgh, PA

Honors and Awards

2019	Up-Goer Five Thing Symposium, ASM Microbe 2019 <i>Science communication symposium where two teams presented research abstracts using only 1,000 most commonly used words in English. I was on the winning team (Team People Still Learning) and won both team MVP and best phrase substitution based on audience voting.</i>
2019	Outstanding Abstract Award, ASM Microbe 2019
2018	Conference Participation Grant, International Microbiome in HIV Workshop
2017	Herbert H. Kellogg Fellowship, Columbia School of Engineering and Applied Sciences <i>Recognizing distinguished ability as a teaching assistant</i>
2012 – 2016	Presidential Fellowship, Columbia School of Engineering and Applied Sciences <i>Selected by a panel of SEAS faculty for the distinguished Presidential Fellowship as an incoming MS/PhD candidate due to “outstanding potential for graduate</i>

MEDINI K. ANNAVAJHALA, Ph.D.

research and training.” The fellowship provided full financial support to pursue my doctoral research with intellectual freedom in any field within SEAS.

2014 – 2015 International Fellows Program, Columbia School of International and Public Affairs

Selected as part of an exclusive multidisciplinary group of 30 students to participate in discussions on the role of the US in international affairs.

2012 Phi Beta Kappa Honors Society induction, Carnegie Mellon University

2012 Phi Kappa Phi Honors Society induction, Carnegie Mellon University

2012 University Honors, Carnegie Mellon University

2012 Mellon College of Science Honors, Carnegie Mellon University

2012 Outstanding Undergraduate Research, Carnegie Mellon University

2012 Outstanding Academic Achievement, Carnegie Mellon University

2008 – 2011 Science & Humanities Scholar, Carnegie Mellon University

Academic Service

2009 – 2011 AmeriCorps Scholar in Service Pittsburgh, PA

Selected as the Community Service Intern at Carnegie Mellon University through AmeriCorps. I networked with local non-profit organizations and organized targeted local service experiences for all campus student groups.

2010 – 2012 Biology Outreach Programs Pittsburgh, PA

Introduced local high school students to biology laboratory practices through the Carnegie Mellon University Department of Biological Sciences.

Professional Organizations and Societies

Memberships

2018 – Present American Society of Microbiology

2016 – Present American Association for the Advancement of Science (AAAS)

2016 – Present Water Environment Federation (WEF)

2016 – Present NY Water Environment Association (NYWEA)

Ad hoc Reviewer

2019 mSphere

2017 Environmental Science & Technology

2016 Chemical Engineering Journal

Fellowship and Grant Support

Current Support

12/2018 – 12/2020 TRANSFORM TL1, Irving Institute for Clinical and Translational Research
Columbia University Irving Medical Center; Role: Postdoctoral Fellow
“Microbial metagenomic pathways contributing to chronic inflammation in patients with HIV.”

MEDINI K. ANNAVAJHALA, Ph.D.

Past Support

2011	Howard Hughes Medical Institute (HHMI) Researcher Grant
2011	Howard Hughes Medical Institute (HHMI) Small Undergraduate Research Grant (SURG)

Teaching Experience and Responsibilities

06/2017 – Present	Microbiome Working Group Research seminar series	New York, NY
	<i>Organize monthly educational conferences on topics of microbiome research at Columbia University Medical Center</i>	
09/2016 – 12/2016	Dept. of Earth and Environ. Eng., Columbia University	New York, NY
	<i>Teaching Assistant, Aquatic Chemistry</i>	
01/2012 – 05/2012	Dept. of Biological Sciences, Carnegie Mellon University	Pittsburgh, PA
	<i>Teaching Assistant, Experimental Techniques in Molecular Biology</i>	
09/2011 – 12/2011	Dept. of Biological Sciences, Carnegie Mellon University	Pittsburgh, PA
	<i>Teaching Assistant, Experimental Biochemistry</i>	
08/2010 – 12/2010	Dept. of Philosophy, Carnegie Mellon University	Pittsburgh, PA
	<i>Teaching Assistant, Ethical Judgments in Professional Life</i>	

Public Health Activities

04/2019	Supervisory Scientist, Blueprint Earth	Mojave National Preserve, CA
	<i>I was selected by the non-profit organization Blueprint Earth to serve as a Supervisory Scientist in Hydrology for a 5-day field expedition in the Mojave National Preserve. The mission of Blueprint Earth is to catalog unique ecosystems through a combination of atmospheric, geological, hydrological, zoological, and botanical testing in order to better understand complex systems-level interactions in the natural environment. In my role, I designed a protocol for sampling, culturing, and sequencing of bacteria in water sources around the study area. I helped supervise the 12 undergraduate and post-undergraduate students during the trip, helping provide them with hands-on experience in field research.</i>	
05/2014 – 08/2015	Water Programs Officer, FACE Africa	Rivercess, Liberia; New York, NY
	<i>In my role on the Executive Board of the grassroots non-profit organization FACE Africa, I oversaw the planning and implementation of clean drinking water and sanitation facilities in Rivercess County, Liberia through remote and in-person field work. My responsibilities included the selection of appropriate project sites based on local public health need and engineering considerations; oversight of project implementation by local teams; management of up to \$100,000 grants; and reporting to governmental agencies and donors.</i>	

Publications

A. Original, Peer-Reviewed Research Publications

1. Macesic N, Khan S, Giddins MJ, Freedberg D, Whittier S, Green D, Furuya EY, Verna EC, **Annavaiahala MK**, Gomez-Simmonds A, Uhlemann A-C. Escherichia coli harboring mcr-1 in a cluster of liver transplant recipients: detection through active surveillance and whole genome sequencing. *Antimicrob. Agents Chemother.* 2019. doi: 10.1128/AAC.02680-18
2. Gabryszewski SJ, Wong Fok Lung T, **Annavaiahala MK**, Tomlinson KL, Riquelme SA, Khan IN, Noguera LP, Wickersham M, Zhao A, Muenos AM, Peaper D, Koff JL, Uhlemann AC, Prince A. Metabolic Adaptation Supports Persistent Methicillin-Resistant Staphylococcus aureus Pulmonary Infection. *Am. J. Respir. Cell Mol. Biol.* 2019. doi: 10.1165/rcmb.2018-0389OC. PMID: 30742488.
3. Brotto AC*, **Annavaiahala MK***, Chandran K. Metatranscriptomic investigation of adaptation in NO and N₂O production from a lab-scale nitrification process upon repeated exposure to anoxic-aerobic cycling. *Front. Microbiol.* 2018; 9:3012. doi:10.3389/fmicb.2018.03012 ***contributed equally**
4. **Annavaiahala MK**, Kapoor V, Santo-Domingo J, Chandran K. Structural and Functional Interrogation of Selected Biological Nitrogen Removal Systems in the United States, Denmark, and Singapore Using Shotgun Metagenomics. *Front. Microbiol.* 2018; 9:2544. doi: 10.3389/fmicb.2018.02544
5. Gomez-Simmonds A, Stump S, Giddins MJ, **Annavaiahala MK**, Uhlemann AC. Clonal background, resistance gene profile, and porin gene mutations modulate *in vitro* susceptibility to imipenem/relebactam in diverse Enterobacteriaceae. *Antimicrob. Agents Chemother.* 2018; 62:e00573-18. doi: 10.1128/AAC.00573-18. PMID: 29891602.

B. Oral Presentations

1. **Annavajhala MK**, Gomez-Simmonds A, Macesic N, Sullivan SB, Khan SD, Giddins MJ, Stump S, Verna EC, Uhlemann A-C. Microbial signatures of colonization by multidrug-resistant organisms (MDRO) in liver transplant recipients. ASM Microbe; 2019 June; San Francisco, CA.
2. Verna E, **Annavajhala MK**, Nenad M, Brown R, Sullivan S, Korakani G, Giddins M, Khan S, Gomez-Simmonds A, Uhlemann A-C. Intestinal Microbiome Diversity is Associated with Liver Disease Etiology and Predicts Post-Liver Transplant Mortality. ATC; 2018 June; Seattle, WA.
3. Zhou MJ, Cohen ME, **Annavajhala MK**, Moscosco D, Brooks C, Whittier S, Chong DH, Uhlemann A-C, Abrams JA, Freedberg DE. Gastrointestinal Bacterial Pathogen Colonization and Risk for Subsequent Infection in the Intensive Care Unit. DDW; 2018 June; Washington, D.C.
4. Verna EC, Macesic N, **Annavajhala MK**, Giddins MJ, Stump S, Brown RS, Gomez-Simmonds A, Uhlemann A-C. Dynamic adaptations of intestinal microbiota after liver transplantation. AASLD; 2017 Oct; Washington, D.C.
5. **Annavajhala MK**, Kapoor V, Santo-Domingo J, Chandran K. Comammox functionality is ubiquitous in engineered biological wastewater treatment systems. WEFTEC; 2017 Oct; Chicago, IL. * *Conference Featured Presentation/Speaker*
6. **Annavajhala MK**, Fanyin-Martin A, Taher E, Elk M, Kapoor V, Santo-Domingo J, Chandran K. Metagenomics of Anaerobic Food Waste Fermentation. WEFTEC; 2017 Oct; Chicago, IL.
7. Park MR, **Annavajhala MK**, Park H, Chandran K. Nationwide survey of microbial structure, function and metabolic pathways driven by wastewater treatment plant operating conditions and designs revealed using metagenomic and metatranscriptomic approaches. WEFTEC; 2017 Oct; Chicago, IL.
8. **Annavajhala MK**, Li Z, Chandran K. Metagenomics of a Mainstream Biofilm-Based Deammonification Process with and without Bioaugmentation from a Sidestream Deammonification System. AEESP Late-Breaking Session, WEFTEC; 2016 Sept; New Orleans, LA.
9. Brotto AC, **Annavajhala MK**, Chandran K. Effect of Long-Term Anoxic-Aerobic Cycling on Nitrous Oxide Emissions through a Combined Metagenomics and Metatranscriptomics Approach. WEF/IWA Nutrient Removal & Recovery; 2016 July; Denver, CO.

C. Poster Presentations

1. **Annavajhala MK**, Gomez-Simmonds A, Macesic N, Sullivan SB, Kress A, Khan SD, Giddins MJ, Stump S, Verna EC, Uhlemann A-C. Drug Class-Specific Relationship between Antibiotic Exposure and the Gut Microbiota in a High-Risk Liver Transplant Cohort. ASM Microbe; 2019 June; San Francisco, CA. * *Selected for Outstanding Abstract Award and Rapid-Fire Poster Talk*
2. Rojas R, Macesic N, Tolari G, Guzman A, **Annavajhala MK**, Uhlemann A-C. Emergence of diverse carbapenem-resistant Enterobacteriaceae (CRE) in the Dominican Republic. ID Week; 2018 Oct; San Francisco, CA.

MEDINI K. ANNAVAJHALA, Ph.D.

3. **Annavaiah MK**, Saidu R, Tergas A, Kuhn L, Denny L, Uhlemann AC. Distinct cervical microbial diversity and community structure by human papilloma-virus and cervical disease status in HIV-positive women in South Africa. *Microbiome in HIV*; 2018 Sep; Rockville, MD.
4. **Annavaiah MK**, Geng W, Hill-Ricciuti A, Ferguson S, Stump S, Giddins MJ, Messina M, Zachariah P, Green D, Whittier S, Saiman L, Uhlemann AC. Hybrid Sequencing and Assembly Reveals Genomic Diversity of Methicillin-susceptible *Staphylococcus aureus* (MSSA) from a Neonatal Intensive Care Unit (NICU) Surveillance Effort. *ASM Rapid Applied Microbial Next Generation Sequencing and Bioinformatic Pipelines*; 2018 Sep; Tysons, VA.
5. May M, **Annavaiah MK**, Compres G, Freedberg DE, Graham R, Uhlemann AC, Abrams JA. A Randomized Controlled Trial to Assess the Effects of an Antimicrobial Mouthwash on the Oral and Esophageal Microbiome. *DDW*; 2018 Jun; Washington, DC.

C. Thesis

1. **Annavaiah MK**. Meta-omics-derived structure, function, and activity of mixed microbial communities driving biological nutrient removal and recovery. Columbia University, New York, NY, 2017.

D. Reviews

1. **Annavaiah MK**, Gomez-Simmonds A, Uhlemann A-C. Multidrug-Resistant *Enterobacter cloacae* Complex Emerging as a Global, Diversifying Threat. *Front. Microbiol.* 2019; 10:44. doi: 10.3389/fmicb.2019.00044

Invited Presentations

A. Seminars

1. "Genomics of methicillin-susceptible *Staphylococcus aureus* (MSSA) from a neonatal intensive care unit (NICU)." Pediatric Infectious Diseases Division Conference Rounds, Columbia University Medical Center, 2019; New York, NY.
2. "Microbiome 101." Microbiome Working Group Seminar Series, Columbia University Medical Center, 2017; New York, NY.
3. "Using Molecular Techniques and Next-Generation Sequencing to Understand and Optimize Wastewater Treatment Processes." Hot Topics in Water and Wastewater, NJAES Office of Continuing Professional Education, Rutgers University, 2015; Belvedere, NJ.
4. "Meta-Omics of the Engineered Water Cycle." Ion Torrent World Tour, 2015; New York, NY.

Trainings and Workshops

Machine Learning Bootcamp, Columbia University Mailman School of Public Health, June 2019
